

FEMA

November 15, 2018

Peter Martin
Water Resources Manager
Calaveras County Water District
120 Toma Court
San Andreas, CA 95249

Dear Mr. Martin:

We have completed our final review of the *Calaveras County Water District Local Hazard Mitigation Plan*, officially adopted by the Calaveras County Water District on November 14, 2018, and found the plan to be in conformance with Title 44 Code of Federal Regulations (CFR) Part 201.6 *Local Mitigation Plans*.

The approval of this plan ensures the Calaveras County Water District's continued eligibility for project grants under FEMA's Hazard Mitigation Assistance programs, including the Hazard Mitigation Grant Program, Pre-Disaster Mitigation Program, and Flood Mitigation Assistance Program. All requests for funding, however, will be evaluated individually according to the specific eligibility, and other requirements of the particular program under which applications are submitted.

FEMA's approval of the *Calaveras County Water District Local Hazard Mitigation Plan* is for a period of five years, effective starting the date of this letter. Prior to November 15, 2023

Calaveras County Water District is required to review and revise its plan to reflect changes in development, progress in local mitigation efforts, and changes in priorities, and resubmit it for approval in order to continue to be eligible for mitigation project grant funding. The enclosed plan review tool provides additional recommendations to incorporate into the plan when Calaveras County Water District undertakes its identified plan maintenance process.

If you have any questions regarding the planning or review processes, please contact JoAnn Scordino, Community Planner, at (510) 627-7225 or by email at joann.scordino@fema.dhs.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Juliette Hayes". To the left of the signature is a small blue initials "fw".

Juliette Hayes
Director
Mitigation Division
FEMA, Region IX
