

**Hydrant Meter Service:** The fill station and hydrant meters are available only to provide temporary construction water for construction use, for a period not to exceed 90 days, unless an approved extension is approved by the General Manager. The customer is required to fill out and sign an application for service which includes a description of intended water use, location of where the construction is to occur, and an estimate of anticipated usage. The application includes a service agreement establishing liability for any accrued costs for water consumption/base daily charges, District staff and administration, damage to District infrastructure, and unscheduled maintenance to the District water system, including flushing, due to improper use of hydrant meter equipment/facilities. Use of this water for irrigation, landscaping, or resale is strictly prohibited. Only District provided hydrant meters are permitted and all water pulled from a hydrant can only be used on the location specified on the application.

The applicant, or their contractor, must be able to show proof of an approved hydrant meter service to draw water from a hydrant.

If at any time the District declares mandatory conservation measures are in effect, the District may limit the use by which hydrant meter pulls may be used for.

Installation fees and deposits are required in accordance with the Hydrant Meter/Fill Station Service Fees chart below. Once an application has been authorized by the District, service will be provided, subject to availability of staff, equipment, and facilities. Any unauthorized use of the water or District equipment will be subject to immediate termination of the service and could face being billed a water loss fee of two hundred (\$200) dollars and can be held liable for up to \$2,500 per day for violating the Business & Professional Code Section 17200, in addition to any additional fees due to damage caused to the District's property due to unlawful diversion.

Hydrant meter or fill station services will be billed monthly at the irrigations/Landscape/Other consumptive rate and are subject to the same collection policies and procedures as other water and sewer services in their applicable service areas. Rates established for their usage are included in the Hydrant/Fill Station Service Fees chart below.

The customer will also be charged for any other costs as defined in the service agreement above. After payment is received in full for all charges related to this service, the unused portion of the security deposit will be returned to the customer. The General Manager or his designated representatives can provide written authorization for exceptions to this policy not to exceed \$1,000.

<b>Charge Type</b>	<b>Payment Terms</b>	<b>Fill Station</b>	<b>Hydrant Meter</b>
Security Deposit	Before Installation	None	\$500
Installation Charge	Before Installation	\$30	\$50

Consumptive Rates	Monthly and/or Disconnection of Service	Irrigation/Landscape/ Other	Irrigation/ Landscape/ Other
Daily Base Charge	Monthly and/or Disconnection of Service	\$7	\$7
Removal Fee	Disconnection of Service	\$30	\$50

This policy will become effective for all hydrant meters as of its effective date.
